OCTOBER 2022

October proved to be a busy month for the ministry with lots of opportunities to serve. Here are some of the highlights:

### Web:

- I worked with pastor Flynn Kettell of FMBC Coloma, Michigan, on a website for their church.
- I spoke with a pastor in Tennessee about online giving. I provided the information needed to bring it up at their business meeting, and they voted to move forward so we are in implementation phase now.

### AV:

- I worked remotely with Coty Lee at Hyde Park in West Monroe, Louisiana, to replace the computer they use for streaming their services.
- I quoted a PTZ-20X-NDI camera for John Green of Chapelwood MBC in Huntsville, Texas, and have since ordered the equipment. Will be installing soon.
- I quoted cameras for a couple of other churches in October but have not heard back.
- I received a call from Friendship MBC of Flint, Michigan. A few months ago, they had been sold a sound board that was incompatible with the rest of their equipment. They reached out to ABATech for help getting operational and I was able to order them an additional piece of equipment to get them up and running again.
- I went to LMBIS in Minden, Louisiana, to install a second TV in the new chapel.

### Graphic Design:

- I was asked by Nathan Luellen of LMBIS to redesign the Missionary Baptist Newspaper that is sent out monthly by the seminary. View online at [www.lmbis.org](http://www.lmbis.org).
- Corsicana MBC of Corsicana, Texas, contacted me about a logo for their church and I worked with Tiffany Fredrickson to come up with the design below.

### Recent/Upcoming Services & Projects

November 13  
**Praise for Missions**  
Emmanuel MBC  
Bogalusa, LA

November 26  
**Camera System Install**  
Chapelwood MBC  
Huntsville, TX

**OCTOBER 2022**

## **October Financials**

\*Some checks were delayed due to the recent change of sponsor churches. Pending complete information from the new Missions Treasurer. Please be patient during this transition period. I will include both October and November financials on my next report.
