PRAYER REQUESTS

1.) Pray for more opportunities for me to minister through the ABATech ministry, and to share the ministry/fill pulpits in the churches.

2.) Pray for the upcoming project in Alabama. This is a big project. I am praying for a co-pilot for the drive, church appointments along the route, provision, protection, and a smooth project.

3.) Pray for my family and for Caleb's business (Gen1 Greenhouse). Caleb graduated high school one year early this year and will begin to focus more on growing Gen1 into a full-time retail nursery & landscape business.

APPOINTMENTS

Sun., May 18

New Hope MBC, Dekalb, TX

Sun., May 25

Center MBC, Center, TX

Wed., May 28

White Rock MBC, Center, TX

NEW LOGOS FOR TURKANA MISSIONS

If you follow missionary Eddie Williams and Turkana Missions, then you might have noticed a new logo appearing on his latest material. We actually came up with three designs. One marks his 20th anniversary with Turkana Missions. The other removes the "20 year" seal, and then we did a stripped down version with only the TM emblem.

WEBSITE SERVER UPGRADES

I transferred all of the websites that I host from an older server to a new server running the latest software. This upgrade adds security and keeps the sites running at optimal performance, and compatible with the latest features. I also began working on a new website for First Baptist Church of Port Salerno, Florida.

MAJOR PROJECTS UPCOMING

Zion Missionary Baptist Church of Winfield, Alabama, voted to approve a large upgrade to their church sound and video equipment. This church currently has audio cables running from the stage at the front of the church to the soundboard at the rear of the church under the floor of their pier and beam building. I will travel to Alabama to replace their soundboard with a new digital board and add a stage box to the stage. This will require only one Ethernet cable, which we will put in conduit, to connect the two devices. At the same time, we will be adding new speakers, wireless mics, connecting two TVs at the front of the church, one TV in the rear of the church, and wiring for the possible later addition of TVs in the nursery and fellowship hall. Fiber HDMI will be used for the TVs in the sanctuary while BirdDog Play devices will be used in the nursery and fellowship hall. Finally, we will be adding a PTZOptics Camera. If you have any questions about any of these devices for your church, please send me a message.

I am in the beginning stages of quoting another project of the same scale for a church in Mississippi. These churches are 6 1/2 - 8 1/2 hours from home and the projects cannot be completed in a weekend, requiring unpaid time away from work during the week and several days of travel expenses. As I do not profit from the equipment or charge for my travel/time/labor, I want to thank the churches who support this ministry monthly to make projects like these possible.

CAN I SHARE THE MINISTRY WITH YOUR CHURCH?

I love to visit the churches and would love the opportunity to share about the ministry and/or preach at your church. If you would like to put something on your church calendar, please contact me.

Financials

March 2025

Grace Baptist - Hope, Indiana	\$100
1st Spring Hill Association	\$75
Hyde Park Baptist - West Monroe, Louisiana	\$50
Florida State Association	\$250
Nevill's Chapel - Mt. Pleasant, Texas	\$100
